Role: Full stack developer.
Responsibilities: I was responsible for finance API and UI implementation according to software requirements.

WinKAS A/S, Kharkiv, Ukraine
10.2012 – 11.2017, ASP.NET C# Developer, Technical Leader
WinKAS A\S is a Danish company focused on software development for accounting and finance.

Project: "WinKAS Web + API + Mobile". Highly available Web API service created as integration link between old fashion databases and Web and Mobile clients.
Technologies: ASP.NET MVC, ASP.NET Web API, Entity Framework, Windows services, Windows Workflow, C# 4.5, SPA (Single Page Applications, DurandalJS), Titanium Mobile.
Role: C# developer, Web developer, Technical Leader, Mobile applications developer.
Responsibilities: I was responsible for complete API and Web system design and implementation and for mobile application development using cross platform mobile tools.

Project: "Touch&Play". This is Web application for managing user's media content.
Technologies: ASP.NET MVC, ASP.NET Web API, AngularJS, Entity Framework.
Role: Backend developer, Technical Leader.
Responsibilities: I was responsible for complete services design and implementation and mobile client integration.

Project: "PushService". ASP.NET MVC Web application for sending mobile push messages to Android and IOS devices.
Technologies: ASP.NET MVC, ASP.NET Web API, Windows Services, Entity Framework, PushSharp, DotNetMQ.
Role: Web developer, Technical Leader.
Responsibilities: I was responsible for complete services design, implementation and services integration.

Project: "EducationDatabase". This is Web application for managing education courses.
Technologies: ASP.NET MVC, ASP.NET Web API, AngularJS, Entity Framework.
Role: Web developer, Technical Leader.
Responsibilities: I was responsible for complete services design and implementation.

Ciklum, Datakomm team, Kharkiv, Ukraine
10.2006 – 10.2012 C# Developer, Senior Programmer, Team Leader, Technical Leader
Ciklum is a Danish company focused on establishing dedicated software development teams in Eastern Europe and Ukraine.
Datakomm is a big and distributed international team created for developing software projects for banks and data centers.

Project: „CPR web service". High performance WCF service crated as integration link for 3rd party web services and socket services.

Andrii Tkach

Technologies: WCF, Workflow Foundation, C# 4.0, Socket communication.
Role: C# developer.
Responsibilities: I was responsible for developing web service facade and few integration adaptors. Furthermore, I was responsible for Workflow Foundation 4 research sub-project.

Project: „FieldFlow". This is an Internet Explorer extension for web pages processing, modification and extracting data.
Technologies: COM, C# 3.5, Multithreading, Web page processing, Web service integration, PostSharp, Unit testing, web page functional testing.
Role: Team Leader, C# developer.
Responsibilities: I was responsible for general re-factoring procedure, new features development and workflow integration issue.

Project: „Multiface". This is a SOA solution for WCF and Web Service integration.
Technologies: C# 4.0, Web Service, Code generation.
Role: Team Leader, C# developer.
Responsibilities: I was responsible for general project design of the "next big project phase" and legacy bug fixing procedure.

Project: „FrontFlow". This is a Web IDE for easy SharePoint web parts development and integrating with business web services and workflows.
Technologies: Microsoft SharePoint, WSS, .NET 3.5, Silverlight 3-4, jQuery, MS SQL 2008 (Database + MSRS), Workflow Foundation, WCF, Web Services, PostSharp, XSLT, Microsoft Enterprise Library, NUnit, Third party Build Systems (MSBuild, CruiseControl, FinalBuilder), Telerik, Code generation (templates, XSLT), UDDI.
Role: Team Leader, C# developer.
Responsibilities: I was responsible for general project design and project components decomposition and integration. I was developing "base" SharePoint web part, web services integration, UDDI integration and C# code generation.

Project: „Datakomm website". This is Intranet site of the software development company.
Technologies: Microsoft SharePoint (Publishing site), .NET 3.5, MS SQL 2005, Dundas Charts, NUnit.
Role: SharePoint web parts developer.
Responsibilities: General project development and components integration. I was developing SharePoint web parts and communication procedures between web parts.

Project: „FRS2". This is Runtime system for fraud bank transactions detecting.
Technologies: Microsoft SharePoint, .NET 3.5, MS SQL 2005, Microsoft Analysis Services, Dundas Charts, NUnit, RE, Web Services, COM, Data Warehouse.
Role: C# developer.
Responsibilities: I was responsible for web service development and workflow integration.

Project: „FRAT". This is BI system for fraud bank transactions analysis.
Technologies: Microsoft SharePoint, .NET 3.5, MS SQL 2005, MS Analysis Services, Dundas Charts, Data Warehouse NUnit, MS Integration Services.
Role: C# developer.
Responsibilities: I was responsible for SharePoint web parts development and MS Analysis database development.

Andrii Tkach

Project: „DocFlow BI“. This is Business intelligence system for documents workflow.
Technologies: Microsoft Sharepoint, .NET 3.5, MS SQL 2005, Microsoft Analysis Services, Microsoft Reporting Services, Microsoft Integration Services, Dundas Charts, Telerik Rad Controls, NUnit, Data Warehouse.
Role: C# developer.
Responsibilities: I was responsible for SharePoint web part development and MS Analysis Services development and integration.

Project: „Tentatum“. Web based IDE for Selenium test development and execution.
Technologies: DotNetNuke, .NET 2.0, MS SQL 2005, NUnit, Selenium API.
Role: C# developer.
Responsibilities: I was responsible for UI development based on DotNetNuke CMS.

Project: „TGP“. Web based Portal displaying different statistic and business information. This is actually a message exchange solution.
Technologies: .NET Remoting, .NET 2.0, SharePoint, MS SQL 2005, NUnit.
Role: C# developer.
Responsibilities: I was responsible for .NET Remoting client and server application development and also for SharePoint web parts development.

Project: „Validio Extended“. Web based Portal displaying different statistic.
Technologies: .NET 2.0, MS SQL Server, DotNetNuke.
Role: C# developer.
Responsibilities: I was responsible for DotNetNuke module development and for MS Analysis Services and MS Reporting Services integration.

Argus, Intersoft Lab team, Kharkiv, Ukraine
08.2005 – 10.2006 Software Programmer and Integration Engineer
Argus is a Ukrainian company focused on software development for Ukrainian bank systems.
Intersoft Lab is a small team created for developing and integration data warehouse systems into existing banks processing systems.

Project: „Intersoft Lab“. This is Bank database and analysis system.
Technologies: MS SQL, Python, Delphi, BI.
Role: Delphi and Python developer.
Responsibilities: I was responsible for Delphi components development and MS SQL database stored procedures development.

Sysonline, Ez-Trade team, Kharkiv, Ukraine
02.2005 – 08.2005 Software Programmer
Sysonline is a small international company focused on software development for USA customers.
Ez-Trade is a small team created for developing data exchange application.

Project: „Ez-Trade“. This is Windows application for forms development and data exchange.
Technologies: MS SQL, Delphi, XML.
Role: Delphi developer.

Andrii Tkach

Responsibilities: I was responsible for Delphi components development.

UkrSotsBank, Software development team, Kharkiv, Ukraine
01.2003 – 01.2005 Software Programmer
UkrSotsBank is a big Ukrainian bank.
I was working in the software development team focused on the application development for automation of different kinds of usual banks operations.

Project: „Software development team". I was developing Windows desktop and database applications for internal bank operations.
Technologies: Database servers: Informix Dynamic Server 2000 (Sun OS), Oracle 9i, MS SQL Server 2000; IDE: Borland Delphi 3.0 Borland Delphi 7.0, Borland C++ Builder 4.0; Reporting systems: Crystal Report 6.0, FastReport; Integration technologies: Corba, MIDAS.
Role: Delphi and Informix developer.
Responsibilities: I was responsible for Delphi applications development and Informix database integration.

Personal info

Name	**Andrii Tkach**
Address	61184, Kharkov, Ukraine Druzbi Narodov St. 223 / 37 Tel.: +380505225936 E-Mail: andtkach@hotmail.com Skype: tkachskype Web: http://devatk11.com
Was born	16.01.1981 in Kharkiv, Ukraine
Family status	Married, 3 children
Wife	Olena Tkach, biophysicist
Nationality	Ukraine

School graduate

1987-1997	School 76 in Kharkov
